	This is a monthly Oncology MDM meeting linking Wimmera staff to specialists and pathology in Ballarat.	
Wimmera PCP role:	none	
Objectives	This montly meeting is held via videolink to bring together pathology and specialist clinicians to discuss Wimmera patients with local staff and provide multi-disciplinary care.	
Status:	<input type="checkbox"/> Incomplete <input type="checkbox"/> Complete <input checked="" type="checkbox"/> Ongoing <input type="checkbox"/> Other _____ <input type="checkbox"/> Follow-up activities identified (new template)	
Governance	GICS	
Infrastructure/ software	Webex. This technology is not ideal as there are regular drop outs and difficulties connecting. Sound quality is not good either. GICs hold a licence with Webex to use the platform.	
Clinician Engagement	Good. All clinicians are on board.	
Consumer Engagement	n/a. Although patients give their consent for their care to be discussed.	
Adaptability to other areas of service delivery	No. Not an idea platform.	

Evaluations	An evaluation of the MDM has been undertaken in Ballarat but did not include the technology. It would be good to evaluate this platform from all clinicians to see if what others feel about the technology.
